SOUTHWEST KANSAS CONFERENCE

WELLINGTON, Kan., March 23.—(Special.)—The address of Chaplain McCabe, secretary of the Missionary Society of the Methodist Episcopal Church, at the anniversary of the Conference Missionary Society on Thursday evening, is regarded by many as the most interesting lecture ever delivered in this city. The church was densely crowded, the interest at white heat and the devotion to Christian missions was greatly increased.

The Pentecostal meeting this morning was conducted by Dr. Kean. The religious feeling was very strong and much good is being done at these services.

The conference session began at 9 o'clock Bishop Mallin presiding.

The vote on the constitutional questions pertaining to equal representation of ministers and laymen in the general conference was made the order of the day for tomorrow at 10 o'clock.

The roll of the supernumeraries and supernumeraries of the conference was called and all were continued.

The classes of the third and fourth years were reported and advanced.

Dr. M. S. Hard, secretary of the Church Extension Society and Dr. J. H. Lockwood, agent of the American Bible Society, were introduced and made addresses.

The class of the second year was called forward and addressed by Bishop Mallin.

Hutchinson was chosen as the place for the next session.

In the afternoon the annual meeting of the Temperance Society was held, the address by D. E. Hoover of Winfield.

Miss Hendrick, representing Bethany College of Kansas City, Kan., delivered an address in behalf of that institution.

The Pentecostal service at 4 o'clock was another season of spiritual power.

TO TAX WIND DEALS

BUYERS OF FUTURES WILL HERE-AFTER BE ASSESSED.

Grain Gamblers Must Keep on Hand a Supply of Revenue Stamps to Affix to All Option Contracts—House Committee on Agriculture Completes Consideration of the Anti-Option Bill—Washington News.

WASHINGTON, March 23.—The house committee on agriculture has completed its consideration of the anti-option bill and today announced that it will be reported to the house. It provides that every option contract and every "future" contract shall pay one cent internal revenue tax for every 10,000 pounds of cotton, hops, pork, lard, bacon and dried, salt and pickled meats, and every 10,000 bushels of wheat or other grain. Every cancellation, clearance, or other agreement by which the options or futures are terminated, otherwise than by actual sale and delivery, or such termination is delayed or obstructed, is to have affixed internal revenue stamps representing taxes as follows: On raw or unmanufactured cotton, hops, pork, lard and bacon, one cent; for every bushel of wheat, oats, rye and barley, 2 cents. Every bill of sale executed at the termination of a contract is to have affixed thereto a 2-cent internal revenue stamp. The special tax on option futures is fixed at \$12 instead of \$24 as originally proposed, and the penalty bond required to be furnished is fixed at \$3,000 instead of \$10,000. In the first section, which defines options, the bill has been amended so as to apply to any person who enters into a contract in which such a contract is made as to a future time as within designated month or other period, whether he has or shall not the number of articles or articles contracted to be sold and delivered, or has not theretofore acquired by purchase, or is not then entitled to the right of the future possession of such article, and such contract not including such statements as to the number of articles to be sold and delivered, or the date of its execution, the date of option and future contracts which may be transferred by such person, and all other intimation incident thereto which is to be subject to inspection by the revenue officers. Monthly returns are to be made to the revenue collector, who in return at stated periods is to make reports to the commissioner of internal revenue. Provision is made for the preparation of suitable stamps required by the act. The act also provides for punishing counterfeiters thereof. Persons violating the provisions of the act are to be liable to a fine or imprisonment. There were twelve members of the committee present, and Chairman Hatch said that the bill had been passed by a vote of 12 yeas and 1 nay. The bill was introduced by Mr. McMillan of New Hampshire and Massachusetts. All the absent members, he said, were in favor of the bill.

PRETTER KETTLE OF FISH.

NEW YORK, March 23.—In the police drag net tonight gathered in a large crowd of abortionists who have been doing a thriving business in this city. The arrests were made on warrants obtained by the society for the enforcement of the criminal laws. In nearly every instance were captured the instruments and the necessary appliances for carrying on the illegal business. Many letters compromising the writers were also found. The prisoners were Dr. Geo. H. Ketchum, Dr. William Becker, Mrs. Louise Schott, Dr. William Krasser, Dr. Whitehead, Mrs. Beatrice Schott, Mrs. Amelia Winkelman, Mrs. M. J. McCall, Mrs. Mary Green, Mrs. F. K. Fitch, Mrs. Christina Rothkras, Dr. Benjamin Hawker and Mrs. Walter Fritch. Hatch said that the bill had been passed by a vote of 12 yeas and 1 nay. The bill was introduced by Mr. McMillan of New Hampshire and Massachusetts. All the absent members, he said, were in favor of the bill.

ARKANSAS FLOODS.

CAMDEN, Ark., March 23.—The Onchita river is falling here and traffic over the St. Louis and Iron Mountain railroad was resumed today.

The Cotton Belt trains can perhaps get through by Monday afternoon. The water works have been shut down temporarily on account of the flood and the city is without water. Tonight forty-three feet and five-fifths registered on the government gauge, the highest point reached. The loss to stock in the low lands is heavy.

IOWA'S LAW-MAKERS.

DES MOINES, Ia., March 23.—The house today passed the St. John bill, which prohibits the sale of intoxicating liquors in any public institution controlled by the state.

In the senate the Perry insurance bill was passed. The vote was later reconsidered, but it is thought to be most certain that the bill will pass. The bill makes it unlawful for any company or agent to enter into a contract on rates in Iowa, and provides a fine of from a hundred to a thousand dollars, with a forfeiture of the right to do business in the state.

MISSOURI METHODISTS.

SEDALIA, Mo., March 23.—The resolutions offered yesterday at the Methodist Episcopal conference, contrary to Missouri, were adopted by a vote of 16 yeas and 1 nay. This morning Bishop Merrill addressed the class of deacons on their duties as Methodists and pastors, and at the afternoon session Bishop Waiden of Cincinnati delivered an address on "The Evangelization of Africa."

ENOUGH FIGHT ON HAND.

DENVER, March 23.—When the attention of Governor Waite was called, today, to the report that Louis Houseman, sporting editor of the Chicago Inter Ocean, had gone to Cripple Creek to ascertain whether or not assurances can be given that there will be no interference by the authorities if Corbett and Jackson decide to fight there, he said: "My advice is not to make any arrangements for an international fight in this state. We have enough fight on our hands at present."

We have enough fight on our hands at present."

UNITED MINE WORKERS.

President M. McBride Calls a Convention of the Association.

PITTSBURGH, Pa., March 23.—President John McBride of the United Mine Workers of America has issued a circular calling for the fifth annual convention of the organization to be held at Columbus commencing April 1. It will be the most important convention yet held, for at that convention a national convention will be considered. This means the total suspension of work by miners throughout America from Colorado to east Pennsylvania. If adopted and a date set, the greatest strike in the history of the miners of America will be inaugurated. There are in America fully 100,000 miners who are attached to the United Mine Workers' associations.

Mr. McBride, in the official call for a convention, sets forth a program for independent labor politics to be discussed and acted upon at the meeting. The proposed political action is based upon the course pursued by the trades unions of Great Britain. The program contains compulsory education, a legal eight-hour work day, sanitary inspection, abolition of contract system on public works, national ownership of streets and gas and electric light plants; the nationalization of the telegraph, telephone, railroads and mines.

If endorsed the United Workers will bring the propositions before the next convention of the American Federation of Labor.

LITTLE'S TRIAL.

The Defense Rests—More Witnesses Subpoenaed for the State.

OLATH, Kan., March 23.—Witnesses called for the state in the Little trial on cross examination testified in turn to the good reputation of the defendant. The prosecution then said it would admit all its witnesses; would testify to the good reputation of Little. The defense then rested the case.

An effort was made by the prosecution to impeach the testimony of Duke Heart, who gave strong evidence for the defense, claiming to have witnessed the killing and having heard John-on threaten Little just before the latter fired.

Mr. and Mrs. Skinner of Beatrice, Neb., were positive that they had seen Duke Heart in Beatrice the day of the killing, the 8th of July.

E. B. Sims of the Metropolitan street railway said his records showed that H. L. Stearns, who swore to have seen Duke Heart at the corner of Fifth and Main streets the night of the killing, was elsewhere at the time. Witness Stearns was an employee of the railway.

More witnesses are being subpoenaed for the state, and the case drags slowly on. Forty-seven witnesses for the state were arraigned today and testified to the reputation of the defendant. The state called John-on, proving him to have been a man of good character, law abiding and a peaceful citizen. Most of these witnesses were from Kansas City, and included several county and city officials. On account of the additional number of witnesses subpoenaed the case will not be ready for argument until Monday.

HEYERMAN COURT MARTIAL.

NEW YORK, March 23.—The court martial of Commander Oscar F. Heyerman, late of the United States navy, was held today at the Brooklyn navy yard. Commander Heyerman pleaded guilty to definite specifications in the charges preferred against him. Two of the principal witnesses, Admiral Stanton and Lieutenant Lyman, navigator, were absent.

Judge Advocate Kelly said Commander Heyerman will have to correct the impression which might have arisen by his first plea of "want of definite specification." Lieutenant Commander Mark, counsel for the defendant, stated that nothing was farther from the commander's mind than to take advantage of any technicality. He said that the two charges would, he said, be tried entirely on its merits.

As none of the principal witnesses had appeared, court then adjourned until tomorrow.

PRENDERGAST'S STAY.

His Attorneys Save the Assassin From the Gallows for a Month.

CHICAGO, March 23.—A deputy from the criminal court today served an order of Judge Chetlain on Sheriff Gilbert which prevents the execution of Prendergast until April 6.

Attorney Darrow said today: "The farther away from Chicago you get, the more bitter you will find the feeling against Prendergast. In the streets and in the homes of the people the prejudice is intense. Without knowing the first thing about the case or considering the mental condition of Prendergast, they say 'Hang him!'"

Lieutenant Governor Gill said today: "I don't think it is fair to hang a man who has been so badly treated. He has been in the hands of the public opinion and beyond a doubt, maligned influence."

"My interest in this case," continued Mr. Darrow, who is remarkably earnest in his effort to save Prendergast, "is that of humanity. I am not a lawyer, but I am a man, and I am a man who has been so badly treated. He has been in the hands of the public opinion and beyond a doubt, maligned influence."

"I don't know. All that has been done in the case since we took hold of it has been paid by Mr. Gregory and myself. We shall probably meet the expense of this proceeding, which shall not be considered for the present, but many prominent men and a few public men have offered to contribute to a fund to give Prendergast the benefit of the law. Therefore it is likely that the court expenses will be met by public subscription. Neither Gregory nor myself expect any compensation for what we have done or may be able to accomplish."

Messrs. Darrow and Gregory are among the ablest lawyers in the country.

PIXLEY-FULFORD MESS.

NEW YORK, March 23.—Starr L. Pixley today denied the report that Fulford had handsomely provided for the mother of Annie Pixley. Mr. Pixley said that Fulford had made an offer to pay Mrs. Pixley \$10 a week, and would not sign any papers binding himself to do so. Mr. Pixley promised to pay this sum, Mr. Pixley says, on condition that Mrs. Pixley would make a complete renunciation of the charges and insinuations against him in connection with the death of his wife.

Mr. Pixley states that the suit for a accounting brought against Fulford at Philadelphia will shortly come up for trial, and that it is the intention of his family to push the suit to an end.
